

# Creating a Mendeley bibliography in your TeXMaker document

*Shenan Grossberg*

October 9, 2015

## 1 In Mendeley Desktop

- Tools menu, Options, BibTeX tab, select:
  - Enable BibTeX syncing
  - Create one BibTeX file per collection
  - input path to where you want to save your BibTeX files
  - OK
- Create folder
- Add file(s) to it

## 2 In TeXMaker

- Add:
  - `\bibliographystyle{plain}`
  - `\bibliography{/path/to/BibTeXfile.bib}`
- before `\end{document}`
- Within document `\cite{reference as it appears in your BibTeXfile.bib}`
- To compile:
- Options menu, Configure TeXMaker, Quick Build, wizard, Add:
  - PdfLaTeX
  - Bibtex
  - PdfLaTeX
  - PdfLaTeX
  - Pdf Viewer
- OK
